- Beautiful Black finish
- AK Side Rail for Optic Mounts
- Original Polish Fire Control groups
- Standard rear stock trunnion

WBP 762SC Blonde Rifle

The WBP 762SC Blonde Rifle, imported from Rogow, Poland, is a standout model from WBP, a Polish firearms manufacturer renowned for supplying parts and firearms to police, military, and civilian shooters worldwide. This rifle is chambered in 762x39 semi-auto and accommodates a wide array of magazines and drums, making it a versatile

choice for AK enthusiasts.

One of the rifle's most striking features is its Beechwood Blonde furniture set, complemented by a fat pistol grip and a deep, rich black metal finish. The barrel, sourced from FB Radom, a supplier to the Polish military, is hammer-forged and chrome-lined, providing exceptional durability and accuracy over years of use. The rifle also includes factory serial numbers on most major parts, with the Polish Eagle engraved on the left side of the sight block, adding to its collectibility and resale value. It comes with one 30-round AK 47 magazine.

The WBP Jack model emerged from customer feedback, particularly from those who appreciated the WBP Fox series but desired a model with a standard AKM rear stock trunnion. The Fox series, known for its Beryl trunnion system, allows the installation of the Beryl Optic Rail and has become a favorite among Kalashnikov enthusiasts, setting a benchmark for other AKs.

WBP has taken a deliberate approach in rolling out new models, focusing on quality over quantity. Now, with ten different models in production, all featuring the classic design and quality that WBP is known for, they continue to listen to customer input. Expect to see more exciting WBP firearms and accessories in the future.

US 922R compliance parts include the pistol grip, muzzle brake, magazine, and gas piston.
