contemporary quality control and precision.

For enhanced collectibility and resale value, the rifle features factory serial numbers on all significant components. Additionally, the sight block showcases the Polish Eagle on its left side, adding a distinct Polish touch. Compatible with a variety of AK74 magazines available on the market, this rifle is an excellent choice for those seeking an AK with both traditional quality and style. If you're in search of a rifle that could be passed down through generations, this could be the ideal selection. It comes with one 30-round 5.45x39 magazine.
