The Jack 100 Series rifle, imported from Rogow, Poland, and manufactured by WBP, fuses traditional Polish craftsmanship with the advanced design features of the AK-100

series, delivering exceptional performance and dependability. WBP is a renowned Polish firearms manufacturer that provides weapons and components to military, law enforcement, and civilian markets worldwide. Chambered in 5.45x39 and configured as a semi-automatic rifle, the Jack 100 Series is compatible with a wide range of Mil-Spec magazines and drum magazines. The rifle incorporates several key features from the AK-100 series, including a 90-degree gas block, a 24mm muzzle brake, and dual bayonet lugs. Originally crafted in Poland, the rifle is then upgraded in the U.S. by WBP USA to meet 922r compliance standards. These rifles are also equipped with a Plum Poly stock set and finished in a rich, dark black metal for a sleek, modern appearance.

For added collectibility, the Jack 100 Series rifles feature factory-engraved serial numbers on key components and display the Polish Eagle emblem on the left side of the sight block. These details elevate the rifle's aesthetic appeal and can increase its resale value. The rifle comes with a 30-round AK-47 magazine, making it an excellent choice for those seeking a well-built, modern AK with solid Polish engineering. The AK-100 series, introduced in 1994, is a modernized version of the iconic AK rifle platform. While similar in appearance to the AK-74, the AK-100 series offers versatility with multiple caliber options, allowing it to meet the needs of various operational environments. Developed by Kalashnikov Concern, the AK-100 series refines the legendary AK-47 design by incorporating modern features like a 90-degree gas block, a 24mm muzzle brake, and dual bayonet lugs. These enhancements improve performance and give the rifles a distinct appearance that sets them apart from earlier AK models. This package ensures you're ready for the range or field with all the essentials to make the most of your new rifle.
