The WBP Mini Jack AK47 Pistol is a semi-automatic 7.62x39mm AKM Pistol manufactured in Poland by WBP Rogow. Expanding on Poland's esteemed tradition of firearm excellence, this model joins the ranks of the WBP Lynx and Mini Jack Pistol series. Combining classic Kalashnikov craftsmanship with modern production techniques, these pistols represent some of the finest AK offerings available today.

The Mini Jack features a new FB Radom Steyr machine-produced military cold hammer-forged chrome-lined barrel, a mil-spec forged barrel trunnion, and a precisely machined bolt and carrier. Designed as a high-quality, adaptable base, this pistol allows users ample

opportunity to customize the firearm to their specifications.

Distinguishing itself from other AK47 pistols, the Mini Jack is equipped with a traditional side rail for AK optic mounts. Collectors will appreciate that this all-Polish firearm has matching serial numbers on the receiver, trunnion, and other parts. Its top-tier 10-inch FB Radom hammer-forged chrome-lined barrel ensures both accuracy and durability. The pistol is ideal for adding an SB Tactical pistol brace or an NFA stock for conversion into a short-barreled rifle.

Each Mini Jack comes with a virgin underfolder rear trunnion, enabling users to attach an underfolder stock to their SBR build after final machining to the trunnion and receiver, and obtaining an approved Form 1 from the ATF. The pistol is finished with a basic black paint style and includes a 30-round magazine, although the type may vary. It also features a one-piece front sight block threaded to 14 x 1 left for your preferred muzzle device. The Mini Jack is covered by a 1-year limited warranty.

Please note: The magazine and pistol grip color may differ from those shown in the pictures.
