- AK Side Rail for Optic Mounts
- Polish Laminated front handguard
- Original Polish Fire Control groups
- SBR Friendly with Virgin Underfolder Trunnion, requires final machining to install underfolder

WBP Rogow has developed the semi-auto .556AKM Pistol, known as the WBP Mini Jack MJ556SR AK47 Pistol. Continuing Poland's tradition of excellence in firearm manufacturing, the WBP Lynx series and Mini Jack Pistols showcase the country's commitment to quality. These pistols blend traditional Kalashnikov construction

techniques with advanced machinery, resulting in one of the premier AK pistols available today. Featuring Polish craftsmanship, the Mini Jack includes a mil-spec forged barrel trunnion and a finely finished bolt and carrier, making it one of the top AK pistols on the market. Designed to be a versatile and high-quality base, the Mini Jack allows users to customize it to fit their specific requirements.

This AK47 pistol is packed with premium features not found in other models. It includes the classic side rail for mounting AK optics, making it a coveted piece for collectors. The pistol boasts matching serial numbers on the receiver, trunnion, and other major components. Ideal for customization, the Mini Jack can be outfitted with an SB Tactical pistol brace or an NFA-approved stock for a Short Barreled Rifle (SBR). Its minimal recoil and exceptional accuracy make it well-suited for shooting .556 rounds.

Each pistol comes with a virgin underfolder rear trunnion, allowing users to add an underfolder stock to their SBR setup, following final machining of the trunnion and receiver and obtaining an approved Form 1 from the ATF. The one-piece front sight block is threaded to 14x1 for compatibility with your preferred muzzle device. A 1-year Limited Warranty is included. Additional WBP .556 and FB Radom .556 magazines are available for separate purchase.

Please note: The customized pistol shown in the photos is an example of potential modifications. The pistol does not include extra accessories such as the suppressor, brace, optic, or red wood stock set shown in the images.
