- SBR Friendly with Virgin Underfolder Trunnion, requires final machining to install underfolder

WBP Rogow has introduced the semi-auto .556AKM Pistol, known as the WBP Mini Jack MJ556SR AK47 Pistol with Brace. Through the WBP Lynx series and Mini Jack Pistols, Poland continues to set the standard for excellence in firearms manufacturing. These pistols merge traditional Kalashnikov construction techniques with cutting-edge machinery, resulting in one of the finest AKs available. The Mini Jack exemplifies Polish craftsmanship, featuring a mil-spec forged barrel trunnion and a meticulously finished bolt and carrier, making it a standout in the world of AK pistols. Designed as a high-quality, adaptable base, the Mini Jack allows users to customize the firearm to their preferences.

The AK47 pistol is packed with premium features not found in other models. It includes the classic side rail for AK optic mounting and is a Polish-made firearm that collectors will appreciate. It boasts matching serial numbers on the receiver, trunnion, and other key components. The pistol comes equipped with a SB Tactical SOB47 brace, enhancing stability. Its minimal recoil and impressive accuracy make it ideal for firing readily available .556 rounds.

Each pistol is supplied with a virgin underfolder rear trunnion, allowing for the addition of an underfolder stock to your SBR build after completing final machining on the trunnion and receiver, and obtaining an approved Form 1 from the ATF. The one-piece front sight block is threaded to 14x1, accommodating your preferred muzzle device. A 1-year Limited Warranty is included. Additional WBP .556 and FB Radom .556 magazines are available for separate purchase.

**Please Note:** The WBP rifle is designed to achieve optimal accuracy with 5.56x45 ammunition.
