WBP, located in Rogów, Poland, is excited to announce the availability of their AK barrels for U.S. shooters interested in enhancing their favorite rifles or DIY builds. Known for their exceptional AKM-AK47 firearms, WBP is expanding its range of components. Each barrel features button rifling and is manufactured using cutting-edge precision gun drilling technology, ensuring superior quality. The barrels undergo gas nitriding treatment both inside and out, which enhances corrosion resistance, strength, durability, and longevity. To guarantee excellence, every WBP barrel is meticulously tested with a Zeiss CMM, air gauging, and endoscopic cameras.
